

# Protection. Prevention. Peace of Mind.

## Trailer and Heavy Equipment Tracking

Every business that uses heavy equipment knows the risks of leaving their assets in the field, where they can be subject to theft and unauthorized use. With GPS trailer and heavy equipment monitoring, you get the security of knowing exactly where your assets are at all times.

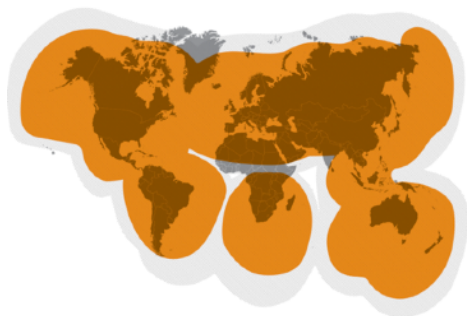

## Off-Site Insights

Do you worry about leaving your trailers and heavy equipment unattended? You're not alone—theft and vandalism of unattended equipment is an expensive and all-too-common occurrence.

Designed to monitor and protect your heavy equipment, GPS Trackit's Trailer and Heavy Equipment Tracking provides a cost-effective asset monitoring solution for every business. Protect your valuable assets and improve the visibility of your mobile inventory with live tracking, cellular coverage, and GPS

### Monitor More, Pay Less
