

# **Real Data, Real Decisions**

**GPS-Enabled Vehicle and Driver Behavior Reports** 

"I highly recommend GPS Trackit. Your fleet management life will be simplified and the data you can gather will help you make informed decisions with predictable

P&CG reviews GPS Trackit

#### **GPS Fleet Management Reporting**

Our reporting tools have been built to meet the day-to-day intelligence needs of fleet-owning businesses. You can schedule reports to deploy automatically, making it easier than ever to get the reports you need precisely when you need them.

- ✓ Monitor Fleet Activity
- ✓ Get Actionable Data
- ✓ View and Compare Trips
- Mileage Summaries

Idling reportedly costs long-haul truck fleets nearly \$8,050 a year per truck. **GPS Trackit customers have been able to save an average of**  **Northside Plumbing** was able to save **\$600 in the first month** of using GPS Trackit when they saw that employees were leaving the job site early on a daily basis.

The Detailed Report provides information about events, date and time, the location, vehicle speed, posted speed limit (if available), and direction of travel associated with specified vehicles. The Detailed Report displays an entry for each of the following events:

- ✓ Ignition On, Ignition Off
- ✓ Travel Start/Stop
- ✓ Drive, Idle

✓ Geofence In/Out

 $\checkmark$ 

 $\checkmark$ 

Rapid Acceleration

Hard Brake, Hard Turn

- ✓ No GPS
- ✓ Driver Login/Logout
- ✓ Sudden Stop

"The best thing about GPS Trackit's system is the peace of mind the management has by knowing exactly where all of our assets are at all times. And GPS Trackit provides clear and easy to use maps and reports to accomplish that."

This report compiles and displays driving behaviors ✓ that may indicate aggressive, distracted, or ✓ otherwise unsafe driving. Driver Safety entries are triggered upon the occurrence of rapid acceleration, ✓ hard turning, hard braking, and sudden stops.

- ✓ Rapid Acceleration
- ✓ Exceeding Posted Speed
- ✓ Hard Braking
- ✓ Extended Idling Time
- ✓ Hard Turning

Capterra \* \* \* \* \* USERS LOVE US SHOPPER APPROVED \* \* \* \* \* USERS LOVE US Commercial vehicle crashes cost the economy **87 billion USD** every year. **The average cost per claim of a commercial liability is around \$10,000**. GPS Trackit helps companies stay safe by minimizing the risk of accidents

#### **On-Demand Temperature Reports**

With GPS Trackit Temperature Monitoring, you can generate detailed temperature reports for up to three separate trailer zones. Track trailer temperature fluctuations and verify compliance with FDA safety regulations with regular updates, GPS time stamps, demand reports and location data.

- ✓ Monitor Up to 3 Temperature Zones
- ✓ Keep Practices Safe and Compliant
- ✓ On-Demand Temperature Reports
- ✓ Eliminate Loss of Perishable Goods

Our speed report displays how fast the vehicle was going, over the posted speed if available, and where the speeding incident occurred. This data can be used to rank your drivers in the top or bottom of their class. See the grades of your drivers and compare performance to accurately identify training opportunities.

- ✓ View Posted Speed Limits
- ✓ Set up Speed Alerts
- Identify Speeding Patterns and Risks
- ✓ Rate Performance Based on Events
- ✓ Graded Driver Scorecard

#### **Speeding Creates Up to 28% Decrease in Vehicle Fuel Efficiency**

Statistically, for each 5 mph over 60 mph that is driven, vehicle fuel efficiency is reduced by at least 5% and as much as 33%. Improve dispatching and routing with speeding alerts and reports designed to reduce instances of speeding and excessive fuel usage.

# **State Miles Reports**

For fleets that do business in multiple states, keeping track of fuel taxes can be an overwhelming bookkeeping challenge. Our State Miles Report shows the distance travelled for a given vehicle broken down by state, address, time and date, driver and distance.

- ✓ Miles Driven by State
- ✓ Easily Calculate State Miles
- ✓ Simple Reporting
- ✓ Integrated Views

"We replaced the paper/email mileage reimbursement system with a digital system, which freed up significant time for field personnel."

- CareStar, Healthcare

This reports displays engine diagnostic data, ✓ including OBD-II Diagnostic Trouble Codes (DTC) and indicators like ABS, Airbags, brakes, coolant, cruise control, ignition, oil ✓ pressure and the events. The nature of the indicators displayed varies across vehicle manufacturers, models and model years.

- Troubleshoot Engine Issues
- ✓ Detect Potential Hazards
- ✓ Optimize Fleet Health
- ✓ Schedule Reminders

GPS Trackit clients tend to see a 34% improvement in timely fleet maintenance and average vehicle lifespan. Ardent Construction Inc., a construction company with a fleet of three vehicles, was able to save \$1,500 a year per vehicle by monitoring simple maintenance items.
